02/04/2022		Audi	<b>Manufacturer Safety Recall issued</b> - NHTSA #22V034 - Recall #42L5 REAR AXLE SUSPENSION ALIGNMENT - Status: Remedy Available - Locate an authorized <a href="#">Audi dealer</a> to obtain more information about this recall - <a href="#">Learn more about this recall</a>

**Description:** A check of the suspension alignment of the rear axle was not included originally in the work instructions

for Safety Recall 42L1. This may result in displacement in the wheel alignment, and could result in premature and uneven wear of the tires leading to a decrease of traction. In cases where the tires are worn to the carcass, this may also cause a puncture. This could lead to a loss of tire pressure without warning, potentially causing a loss of vehicle control and even a crash.

**Remedy:** Check and, if necessary, adjust the rear axle suspension alignment on the affected vehicles. Tires will be checked for premature and uneven wear due to a possible misalignment of the suspension and will be replaced if necessary.

07/28/2022

Audi

**Manufacturer Safety Recall issued**

- NHTSA #22V516
- Recall #20DR FUEL PUMP
- Status: Remedy Not Yet Available
- Locate an authorized [Audi dealer](#) to obtain more information about this recall
- [Learn more about this recall](#)

**Description:** A component of the fuel delivery module inside the fuel tank may break while operating the vehicle. The fragments can damage the sealing membrane in the pressure regulator. This may lead to a failure of the fuel delivery module and the instrument cluster will display the Malfunction Indicator Light (MIL). In rare cases and under certain circumstances, however, there may be a sudden loss of engine power or the vehicle may break down without a warning appearing beforehand. A fuel leak due to this failure can be ruled out.

**Remedy:** REPAIR NOT YET AVAILABLE

## Glossary

**First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

**Fleet Vehicle**

Vehicle was registered or sold to a company that manages vehicle fleets.

**Manufacturer Recall**

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

**Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
